Bit of Hadleyism.

Governor Hadley vetoed Speaker Barker's agricultural bill, and gave as his reason that there was not enough money to carry out its provisions. This bill provided that the state should pay 30 per cent of the premiums paid by county agricultural societies and fairs for agricultural and poultry exhibits. It carried an appropriation of \$30,000. This bill was strictly in the interest of the farmers and was endorsed by all agriculturists. It was one of the best bills ever passed by any legislature. Governor Hadley vetoed it, saying we did not have the money. And only the day before he signed a bill appropriating \$11,000 for a monument for Mark Twain. And the day before that he signed another bill appropriating \$5,000 for a monument for General Price at Keytesville, and just a short time before he signed a bill appropriating \$50,000 for monuments at Vicksburg National cemetery. Thus it will be seen that there is lots of money for monuments, but none for the farmers. What does Hadley care for the farmers? He got their votes, but that was long ago. To make a long story short he simply vetoed the bill because its author was a Democrat and because he is not interested in Missouri's prosperity.—LaPlata Home-Press.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by E. M. Laakman.
